SUBJECT: Federal Paper Board, Inc.

Gentlemen:

On behalf of the International Paper Company, I am hereby advising you that the Federal Paper Board Company on March 13, 1996, has merged with International Paper Company. Any future correspondence regarding the former Federal Paper Board properties at 240 Main Street in Marseilles or 960 E. North Street in Morris should be directed to International Paper Company, 75 Chestnut Ridge Road, Montvale, NJ 07645 to the attention of Philip Vogis, Corporate Project Manager. Please update your records accordingly.

Sincerely,

CHAMLIN & ASSOCIATES, INC.

Larry D. Good, P.E.

Dear Mrs. Klemme:

Thank you for arranging the reinstatement of ILD025658782 as requested in the attached letter of 1/15/96.

Further testing of the material stored in drums at the Morris site reduced the number of potentially hazardous drums to three. One drum contains 50 gallons of antifreeze with 12.5ppm arsenic, one drum contains 10 gallons of flammable liquid, and one drum contains two gallons of liquid with high pH.

Since I do not know materials currently listed for the site, I have filled out EPA Form 8700-12 (which you provided) for the potentially hazardous materials presently stored at the site. Please forward this form to the appropriate location for filing.

Respectfully,

W. Duke Everhart
Recycle Technology Development Manager

Dear Ms. Klemme:

This is a request to temporarily re-instate inactive US EPA site number ILD 025658702 which is for a facility at 950 East North Street in Morris, Illinois. According to Norman Vexler, a co-owner of a storage business operating at the site, Federal Paper Board, Inc. owns the property.

The number is needed to manifest 48 drums (17 of which are potentially hazardous) that will be shipped to a hazardous waste incinerator for disposal. The shipment could be ready for disposal this week, so a quick response and notification by fax at (910) 371-4755 would be greatly appreciated.

Respectfully,

W. Duke Everhart
